<http://www.sgsonline.org/fprn>

Volume 13

MISSION STATEMENT: The purpose of the FPRN[®] is to enable fellows to work together cooperatively and conduct multi-center pelvic floor research projects. The goal of the FPRN[®] is to imbue fellows with greater confidence, ability and efficiency in becoming accomplished researchers. Within the FPRN[®] fellows will work and collaborate both with peers and leaders in the field of Urogynecology. The network also provides the opportunity to form ties with colleagues throughout the United States and Canada that will continue long after fellowship. Participation in the FPRN[®] should help members become more effective researchers.
