## PRESIDENT'S WELCOME

As the President of the Society of Gynecologic Surgeons, I am thrilled to welcome you to Rancho Mirage and our 51<sup>st</sup> annual meeting! Attendance is robust and abstract submissions have hit a new record (again)!

I could not be happier with the fantastic work the Scientific Program Committee, expertly led by Dr. Gena Dunivan, has done to create a thoughtful and invigorating program. Our theme, ***Surgeons as Agents of Change in an Evolving World***, will address the challenges we face to stay at the forefront of research and innovation, to serve as mentors and educators for the next generation of surgeons, and to cultivate personal growth. With state-of-the-art talks, stimulating panel discussions, and poster/podium/video sessions, we'll share the latest science and cover a variety of multispecialty topics in gynecologic surgery.

We all know that it is the people at the meeting that make the meeting! Our networking and social events truly are the heart of what make our meeting an enjoyable and productive experience. Kick off the fun at our exciting Welcome Reception from 6-7 PM on Sunday night. On Monday night I invite you to join me in celebrating our award winners at the President's Award Ceremony, followed by the President's Reception. Tuesday morning you have the option to join a yoga session led by Mireille Truong, a relaxing therapeutic way to energize your day, and Tuesday afternoon we feature outdoor fun with the Annual SGS Golf Tournament. If you are not a golfer, brand new this year, we are offering Pickleball on Tuesday afternoon! Our afternoon of leisure culminates with the not-to-be-missed Tuesday evening SGS FUNdraiser. This event has taken many forms over the years, and we remain committed to providing a great evening while raising funds for excellence in gynecologic surgery! This year, we're taking it Back to the '80s! Join us for the highlight of the meeting, featuring delicious food stations, lively '80s music, dancing, and plenty of laughter—all shared with your SGS friends and colleagues. Dust off your leg warmers, tease that hair, and get ready to moonwalk through a night of neon and nostalgia!

We have exciting Postgraduate Courses taking place on

Sunday afternoon, prior to our meeting. One is focusing on "The Contemporary Approach to Advanced Endometriosis and Pelvic Pain" and the other is "Perioperative Planning when there is no Textbook." If you haven't already, you can still register onsite!

Please be sure to join us on Sunday evening for the *SGS Equity Council Presentation - Below the Belt*, presented by Ms. Shannon Cohn. This conversation will explore how the new frontier of storytelling and journalism is fundamentally transforming how women's healthcare is perceived, delivered and improved and how we all have a role to play in this new partnership.

Another new addition to the program this year is the **Innovation Simulation Room** which will take place from 6:30 AM - 7:30 AM on Monday, March 31. This was imagined by our outstanding Education Committee, who organized this opportunity for SGS members to give simulation presentations to our attendees. This is a drop-in format so please stop by and learn new simulation approaches.

Also on Monday, the Mark D. Walters Lecture, entitled *What Makes a Good Surgeon*, will be presented by Dr. Amy Young. Dr. Young joined the American Board of Obstetrics and Gynecology (ABOG) as its new Executive Director in September of 2023 and is bringing a fresh perspective to the Board. I am so excited to hear her reflections!

I am thrilled that we have added Rapid Oral Poster sessions this year, giving more colleagues an opportunity to present their work. This will be held on Monday afternoon from 3:10 PM - 4:10 PM – I urge you to drop by!

Before Tuesday's full scientific session, we are happy to again feature Academic Roundtables covering a wide variety of topics. These small, group settings are a perfect opportunity to question experts.

Then gear up for another scientific session which will feature the TeLinde Lecture. This year we will be focusing on something we often don't discuss at SGS, with Dr. Jose "Tony" Carugno's talk entitled *Surgical Catastrophe: Chicken Soup for the Second Victim*. Dr. Carugno is Professor of Obstetrics/Gynecology and Division Chief of Minimally

Invasive/Robotic Gynecologic Surgery at the University of Miami, Miller School of Medicine in Miami, Florida.

I am proud we are working to support sustainability efforts at this meeting. Intentional changes have been a reduction in the paper used for our program book and SGS branded water bottles that will be given to attendees at registration. Please use these to hydrate instead of plastic while you are with us in the desert!

I also want to urge everyone to spread the love by supporting our new "**Notes of Gratitude**" program. This program is intentionally about continuing to grow the SGS tradition and culture of giving while spreading gratitude and building a supportive community. By providing a giving option at a very accessible price point, everyone can participate, support the SGS mission and acknowledge and thank mentors and colleagues who have helped shape professional careers or personal friendships. Starting at just **\$30 per note**—you can send as many Notes of Gratitude as you wish. **Making a \$100 donation will allow you to send 4 Notes of Gratitude!** Be on the lookout for QR codes during the meeting to participate.

Exhibitor and sponsor relationships are important as their strong support of our society is crucial and helps allow us to bring you the excellent programming and innovation in research and education every year. Please be sure you make time to visit these partners in the exhibit hall during breaks!

I have deep gratitude for the opportunity and immense honor to work alongside members of the SGS Board and Committee volunteers who have made this the go-to meeting for gynecologic surgery, education and research.

Thank you for celebrating with us in Rancho Mirage! I am looking forward to an absolutely fantastic and unforgettable meeting!

A handwritten signature in black ink.

### **The Role of the First and Only FDA-Approved Indigo Carmine Injection as a Visualization Aid in Cystoscopic Assessment of Ureteral Patency**

Each year, countless patients undergo complex urological and gynecological surgeries, particularly hysterectomies and pelvic organ prolapse repairs. Ureteral injuries can occur during these procedures, leading to serious complications if left undetected. Intraoperative cystoscopy plays a critical role in identifying ureteral injuries.

A diagnostic agent that enhances the visualization of ureteral efflux during cystoscopy could significantly improve the detection and diagnosis of ureteral injuries. Indigo carmine injection, now FDA-approved, serves as a valuable visualization aid for cystoscopic assessment of ureteral integrity in adults following urological and gynecological surgical procedures, thereby supporting the detection of ureteral injuries.

## EQUITY COUNCIL PRESENTATION

Shannon Cohn

### Below the Belt (Non-CME)

■ Sunday, March 30, 2025

⌚ 5:00 PM - 6:00 PM

A conversation exploring how the new frontier of storytelling and journalism is fundamentally transforming how women's healthcare is perceived, delivered, and improved and how we all have a role to play in this new partnership.

Shannon Cohn is a filmmaker, lawyer, and social impact producer who has worked globally on topics related to women's health and gender equity.

Her films have aired on PBS, Nat Geo, Discovery Channel, Amazon, and Netflix in over 100 countries. Her latest PBS film, Below the Belt, executive produced by Hillary Rodham Clinton and Rosario Dawson, has screened on six continents, including over 20 US medical schools, at the NIH's 27 Institutes for its 20,000+ employees, and on Capitol Hill for members of Congress co-hosted by Senator Elizabeth Warren and Senator Mitt Romney.

Before Shannon was a filmmaker, she practiced international law and was part of the team that prosecuted Enron Corp. in the largest white-collar crime investigation in FBI history. Shannon has appeared on Good Morning America, The View, and PBS NewsHour and spoken on women's health at the United Nations, Gates Foundation, the Clinton Global Initiative, and more.

She is a member of the NIH NACHHD Advisory Council, WEF Global Alliance on Women's Health, the SWHR Endometriosis Working Group, and a recent two-term member of the Foundation Board of the AAGL.

## SHARE Funds – Your Donations at Work

To our valued colleagues:

Please allow me to review with you what your donations to the SGS SHARE funds continue to support. As part of camaraderie, it is vital to recognize our peers who demonstrate excellence. Your donated monies have been used to support:

- The Don Gallup and Thomas Nolan Funds provide award monies for the distinguished surgeon and distinguished service award respectively.
- As part of surgical education and mentorship, the Mike Aronson and Nancy Frankel and Lennie Siegel Funds are used to provide monetary award support for young gynecologic surgeons to attend the SGS Post Graduate Course and Annual Scientific Meeting respectively.
- Additional educational initiatives include the John O.L. DeLancey Fund which is used to provide monetary support for the Pelvic Anatomy Group and the Education Fund which is used to support the initiatives of the Education Committee, including an Oral Histories project, and this year's simulation lounge which will be featured at the 2025 Annual Scientific Meeting.
- Finally, the monies donated to the Research and CoRPs Funds are used to support the Fellows Pelvic Research Network (FPRN), Systematic Review Group (SRG) and the Collaborative Research in Pelvic Surgery Consortium (CoRPs). These 3 research groups over the past 2 years have published 19 (!!) articles with several more in the pipeline in peer reviewed journals on a multitude of topics including health care disparities, vaginal surgery, leiomyomas, sexual function and surgical education – greatly contributing to advancements in gynecologic surgery.

As you can see, your donated monies are put to great use!

You have opportunities to give a tax-deductible donation when you pay your yearly dues, when you sign up for the Annual Scientific Meeting and at the Meeting itself with your attendance at the always fun Tuesday evening festivities. When you donate, you will be able to specify a fund category or a specific fund to support the part of the SGS core mission that resonates the most with you.

Please consider donating generously, although any amount is much appreciated and 100% of the funds will be used to further our mission of surgical excellence!

With much gratitude,

**Andrew J. Walter, MD**

# 2025 INDUSTRY PARTNERS

## Applied Medical

📍 Booth # 100

Applied Medical designs, develops and manufactures innovative products that enable advanced surgical procedures and optimize patient outcomes. As a global medical device company, Applied Medical is equally committed to improving the affordability and accessibility of high-quality healthcare. We also further minimally invasive surgery by offering sophisticated training, including workshops, symposia and our simulation-based programs.

## Athena Surgical

📍 Booth # 102

Athena Surgical's goal is to bring innovation to the midurethral slings that have been the standard of care for over 20 years. We worked alongside leading stress urinary incontinence surgeons to reengineer a new RMUS Systems to meet the lifestyle needs of patients, the clinical and safety requirements of physicians and the economic realities of today's healthcare environment.

## Boston Scientific

📍 Booth # 200/202

Boston Scientific partners with urologists to continually advance the quality of patient care with innovative urology solutions so you can choose the right technology and the right technique for every patient – without compromise. Visit our booth and speak with a representative to learn more.

## Caldera Medical

📍 Booth # 400

Caldera Medical is a medical device company solely focused on women's health with a commitment to our mission of "Improving the Quality of Life for Women!" We develop, build and market best in class surgical products for the treatment of Stress Urinary Incontinence, pelvic floor disorders, and Pelvic Organ Prolapse, as well as for the hysteroscopic removal of intrauterine tissue. We also collaborate with surgeons to provide women at home and worldwide access to the education and treatment they deserve through our humanitarian programs.

## Coloplast

📍 Booth # 301

Coloplast develops products and services that make life easier for people with very personal and private medical conditions. Working closely with the people who use our products, we create solutions that are sensitive to their special needs. We call this intimate healthcare. Our business includes Ostomy Care, Continence Care, Wound and Skin Care and Interventional Urology. We operate globally and employ about 14,000 employees.

## FEMSelect, Inc.

📍 Booth # 103

FEMSelect, Ltd. ([www.femselect.com](http://www.femselect.com)) provides a meshless and dissection-free approach to pelvic organ prolapse. EnPlace® is cleared by the FDA and indicated for pelvic floor ligament fixation procedures. EnPlace has been safely used in thousands of patients and allows for a minimally-invasive, percutaneous hysteropexy — shown to reduce potential for blood loss, risk of complications and overall procedural time.

## 2025 INDUSTRY PARTNERS

### Hologic

📍 Booth # 303

Our Surgical Solutions portfolio offers minimally invasive treatment options for women facing gynecologic conditions that affect their comfort, health and well-being. Specifically, this portfolio offers best-in-class technology for hysteroscopic and laparoscopic treatment of the symptoms associated with abnormal uterine bleeding.

### Johnson & Johnson MedTech

At Johnson & Johnson MedTech, we are working to solve the world's most pressing healthcare challenges through innovations at the intersection of biology and technology. We harness our deep expertise in surgery, orthopedics, vision, and interventional solutions to design healthcare solutions that are smarter, less invasive, and more personalized. To learn more about how we develop med tech that helps save lives and redefine what it feels like to be a patient, visit [www.thenext.jnjmedtech.com](http://www.thenext.jnjmedtech.com).

### Laborie Medical Technologies

📍 Booth # 401

At Laborie, we believe that great healthcare is an essential safeguard of human dignity. Our Mission every day is to operate as a world-class specialist medical company making and advancing technologies that preserve and restore human dignity. We do that today by helping people with pelvic and gastrointestinal conditions live normal lives, and by helping mothers and babies have safe deliveries.

### LiNA Medical

📍 Booth # 203

LiNA Medical is dedicated to developing innovative, simple to use devices that are designed to improve patient care within minimally invasive gynecology and urogynecology. The LiNA OperåScope® single-use hysteroscopy system offers the ability to see and treat patients in the comfort of the office without the cost/complexity of traditional hysteroscopy. LiNA also manufactures the LiNA Xcise® cordless laparoscopic morcellator, the LiNA SeaStar® retractor system, the LiNA Bipolar Loop® and LiNA Gold Loop®. LiNA is also the proud distributor of the UroCure sling systems for the treatment of stress urinary incontinence.

### ModMed

📍 Booth # 101

The ModMed OBGYN suite is a cloud-based, electronic health records (EHR) system designed to adapt to each doctor's style of practice, remembering preferences and automatically suggesting documentation and billing codes. Available on a tablet or the web, our EHR works seamlessly with our other products and services including Practice Management, revenue cycle management, ModMed Pay, patient collaboration tools and more.

### Neomedic International

📍 Booth # 201

Neomedic International has been for over 20 years committed to improve women's quality of life providing you with Unique solutions for SUI and POP SUI SOLUTIONS NEEDLELESS: The Only single incision sling with 10 years data. KIM: Knotless Incontinence Mesh. The Lightest and tissue friendly sling for SUI. FEMALE REMEE. The unique lifetime adjustable sling for Female SUI, for ISD and Recurrent patients. ### **NinoMed, LLC**

📍 Booth # 300

Our mission is to provide innovative and useful medical products at affordable prices. NinoMed's positioners are designed to improve OR setup, efficiency, patient comfort and safety while reducing costs. Please see Safe-T-Secure, Our All-In-One Trendelenburg Patient Positioner for robotic and laparoscopic surgery.

### **Provepharm**

📍 Booth # 302

Provepharm is an international, private pharmaceutical company, pioneering the 3rd way, based on innovation using mature, well-known molecules for hospital use. Provepharm's portfolio of products meets the highest pharmaceutical quality standards, in the following areas: antidotes, diagnostics, injectable vitamins, metabolism, and neuroscience. Working closely with healthcare professionals, Provepharm is also committed to developing specific services to improve clinical practices and seize opportunities in Europe and the US, as well as in countries selected for their high potential.

### **Soniquence**

📍 Booth # 402

Soniquence provides doctors with high-frequency RF SmoothWave technology that allows for precise soft tissue cutting with coagulation while preserving tissue and delicate margins for pathology. Our wide range of specifically-coupled surgical accessories provide surgeons, and their patients, with the best surgical outcomes.

## **NOTES**

A large, semi-transparent red triangle is positioned in the center of the image, containing the meeting information. A blue curved line with a thin red outline runs diagonally across the bottom of the red triangle. The text "52nd" is written in a large, white, sans-serif font inside the triangle. Below it, "ANNUAL" and "SCIENTIFIC MEETING" are stacked in a smaller, white, sans-serif font.
