Join the SGS 2022 Twitter Conversation

During our 2022 conference all meeting participants are invited to join in the Twitter conversations. Post comments, reports and feedback on the meeting. All you need is a mobile device with an installed Twitter app or a web browser.

Setting up a Twitter Account

Go to www.twitter.com and sign up. You will need to enter information and accept terms of service. You will also need to verify your email address. Twitter provides a wizard set up and ask you to follow five people. It states that it is optional though it does not give you an option to skip it. If you wish to follow the messages at the conference search for #SGS2022.

Install a Twitter Application on your mobile device

Go to <http://twitter.com/download> and select your device. If you do not wish to install an app for Twitter, you can still use Twitter within you web browser.

Sending a Tweet

Your can do this with the Twitter app on your mobile device or on the Twitter website. On the website you can post a tweet by clicking on Home and then type inside the left-hand box that says "compose new tweet". You are limited to 280 characters in a single tweet. At the end of each message you must put #SGS2022.

For example:

TeLinde Lecturer Patricia Turner, MD starting
now standing room only - #SGS2022

Please follow these guidelines:

- Messages must be about the meeting content or activities
- Messages cannot contain personal information
- Messages cannot be a personal attack against another person

We hope that you will join the Twitter conversation by following @Gynsurgery and connect using #SGS2022

Message from the President

As the President of the Society of Gynecologic Surgeons, I am excited to welcome you to the 48th Annual Scientific Meeting in San Antonio, TX from March 27 –30, 2022. The La Cantera Resort is a beautiful facility with many amenities. Dr. Oz Harmanli and the Scientific Program Committee have put together a truly informative program, with exceptional keynote speakers, stimulating panel discussions, and a combination of podium presentations and videos

that cover a variety of timely and interesting topics in gynecologic surgery. In addition, the many collegial social events for which SGS is well known round out an exciting program. The theme of this year's meeting is: Gynecologic Surgery Training: Lessons from the Past, Looking to the Future.

We are fortunate to have thought leaders for our keynote speakers. This year's second annual Mark D. Walters Lecture will be presented by Dr. Marta Crispens, Professor and Division Director of Gynecologic Oncology at Vanderbilt. Her lecture is entitled, "Restructuring Gynecologic Surgical Education: It's a Matter of Equity". This year's Telinde Lecture, will be delivered by Dr. Patricia Turner, Executive Director of the American College of Surgeons. Her lecture is entitled "Surgeons: More to Unite Us than Divide Us". Both of these speakers will take a hard look at our current training structure and examine strategies that can lead to improvements in our field.

Five postgraduate courses are being offered with complete course descriptions on the SGS website. The courses being offered are "Interdisciplinary Approach and Surgical Techniques for Diagnosis and Repair of Mullerian Anomalies", Cara King, DO, Chair; "Evaluation and Management of Vesicovaginal and Rectovaginal Fistulas", Saifuddin Mama, MD, Chair; "Innovation and Entrepreneurship for Medical Professionals", Paula Doyle, MD, Chair; "Multiple Modalities of Myomectomy", Matthew Siedhoff, MD, Chair; "Training the Trainer: A Vaginal Surgery Simulation Course for Educators", Christine Vaccaro, DO, Chair. There will also be multiple Academic Roundtables with a wide variety of topics in the small group setting, a perfect opportunity to question experts in their field.

The Scientific Program Committee Chair, Dr. Oz Harmanli, and I will moderate two panel discussions on topics that are of concern to everyone in GYN surgery. The panels are "Innovations in Training Gynecologic Surgeons", featuring perspectives from Drs. Cecile Ferando, Doug Miyazaki, and Karl Tamussino. The second panel will be about "Operating Room Safety and Efficiency" and will include the following discussants: Dr. Kenneth Catchpole, Dr. Teodor Grantcharov, and Dr. Jason Wright.

Social event planning is underway and, as usual, will be a highlight of the meeting. These events make our meeting so enjoyable. On Sunday evening the Welcome Reception will be from 6 – 7 pm. On Monday evening the President's Reception will be held from 7:15 – 8:30 pm immediately following the Annual Awards Ceremony. Tuesday afternoon leisure activities will feature the SGS Annual Golf Tournament, the Eisenhower Park Hiking Tour and Guadalupe River Kayaking. Not to be missed on Tuesday evening is SGS Got Talent.

Much more information is available on the SGS website. Here is hoping that Coronavirus is a bad memory by Spring 2022 and we can minimize the virtual component of the meeting. I hope you enjoy the meeting in San Antonio!

Sincerely,

Carl W. Zimmerman, MD
SGS President

Mission Statement

The mission of the Society of Gynecologic Surgeons is to promote excellence in gynecologic surgery through acquisition of knowledge and improvement of skills, advancement of basic and clinical research, and professional and public education.

SGS is a Society with a strong belief in mentorship. On the following pages we are pleased to recognize the mentors who have been honored by those whose careers they helped develop while also fostering the mission of SGS.

CME Information

Program Chair: Oz Harmanli, MD

Target Audience: Gynecologic Surgeons

Program Goal: The goal of the annual scientific meeting is to provide member and non-member attendees with a forum for the latest and most innovative developments in gynecologic surgery. This will be accomplished through lecture, slide, video and poster presentations. Oral presentations are followed by a discussion and a question and answer session.

To Obtain Your CME: CME evaluations will be conducted electronically. You will receive an email within one week following the end of the SGS meeting requesting you to fill out an evaluation to attain your CME credits. Even if you do not wish to request CME please fill out the evaluation questions. Your feedback is critical to us to help identify topics and speakers of interest to you. In order to receive CME credits, evaluations must be completed.

If your preferred email address is not in your current SGS profile, please stop at the SGS registration desk during the meeting to update your email address. After the meeting email lennie@sgsonline.org to update your contact information.

Learning Objectives:

Participants should be able to:

1. Evaluate evidence regarding when vaginal, laparoscopic or robotic approaches to gynecologic surgery are indicated
2. Recognize the components needed to deliver patient centered care
3. Summarize outcome data of new and innovative gynecologic surgery technologies
4. Apply knowledge of pelvic anatomy and perioperative care best practices to minimize peri-operative complications
5. Practice surgical teaching and mentorship strategies that maximize the educational value to the next generation of surgeons
6. Describe how to conduct and evaluate high quality surgical education research to maximize trainee education
7. Identify health care disparities within gynecologic surgery to minimize biases that can occur in taking care of women of all backgrounds

ACCREDITATION STATEMENT:

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Cedars-Sinai and Society of Gynecologic Surgery. Cedars-Sinai is accredited by the ACCME to provide continuing medical education for physicians.

CME Information

CREDIT DESIGNATION STATEMENT:

Cedars-Sinai Medical Center designates this live activity for a maximum of **27.00 AMA PRA Category 1 Credit(s)**[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity

NON-PHYSICIAN ATTENDANCE

A certificate of participation will be provided to other health care professionals requesting credits. Participants should ensure in advance that their credentialing or licensing organization accepts *AMA PRA Category 1 Credits*[™].

MITIGATION OF RELEVANT FINANCIAL RELATIONSHIPS

Cedars-Sinai adheres to the ACCME's Standards for Integrity and Independence in Accredited Continuing Education. Any individuals in a position to control the content of a CE activity, including faculty, planners, reviewers or others are required to disclose all relevant financial relationships with ineligible entities (commercial interests). All relevant conflicts of interest have been mitigated prior to the commencement of the activity.

Panel Discussions

Monday, March 28 | 12:55 PM - 1:40 PM CT

Innovations in Training Gynecologic Surgeons

Moderator: Carl W. Zimmerman, MD

**Panelists: Cecile Ferrando, MD, Doug Miyazaki, MD
and Karl Tamussino, MD**

The body of knowledge that an OBGYN trainee is asked to master has grown exponentially to the point that it is not manageable. Specialization is a result.

Case numbers are down, and fewer gynecologists are performing major cases.

We are training people to perform surgery who will never use the skills. Society of Gynecologic Surgeons is uniquely positioned to bring the stakeholders together from within our membership. How can we promote evidence-based decision-making as related to the route of surgery, especially for hysterectomy? The separation of OB and GYN is always ripe for discussion. Do we need to realign the scope of the fellowships? Should we consider enhancing the Minimally Invasive Gynecologic Surgery training with a more comprehensive curriculum and, of course, with the least invasive approach, vaginal surgery, and create a "Benign Gynecology" fellowship?

How does tracking play a role in the future? Is surgical simulation the answer?

How should we ensure skills established during training do not go to waste after residency? What is the best strategy to maintain and even improve surgical skills after training? How are the decision-makers responding to these ideas? In this exciting panel, experts will present their experiences from a variety of different perspectives.

Tuesday, March 29 | 12:25 PM - 1:10 PM CT

Operating Room Safety and Efficiency

Moderator: Oz Harmanli, MD

**Panelists: Kenneth Catchpole, PhD,
Teodor Grantcharov, MD and Jason Wright, MD**

The focus of this panel is safety and efficiency in the operating room (OR).

OR is a complex environment with ever-advancing technology. A successful surgery completed without complications in an optimal time depends not only on the surgeon's experience, skills, and knowledge but also numerous other structural, human, and non-technical factors that the surgeon has no control on. As in any field dealing with human life, team dynamics and communication play a critical role in the OR. Research has indicated the benefits of forming dedicated teams, reducing handoffs, and innovative modalities which constantly and systematically monitor potential breakdowns and propose solutions for the detected problems. Finally, who should do your loved one's hysterectomy? The panel will also attempt to answer this question with the accumulating evidence about the impact of surgeon's volume on operative outcomes with an overall diminishing number of hysterectomies but an increasing number of approaches.

Surgeons Helping Advance Research & Education

Michael P. Aronson Educational Scholarship Recipients – 2021

Jorge L. Alvarado, MD

Jorge L. Alvarado, MD is an assistant professor at the University of California San Diego. He is a full-scope obstetrician-gynecologist and aims to provide comprehensive gynecological care via medical and surgical management of uterine fibroids, endometriosis, pelvic pain, and complex family planning. He is passionate about the care of underserved populations of Southern California, including the uninsured, indigent, and LGBTQ+ folk. He is part of the resident selection committee, resident continuity clinic faculty, and enjoys providing direct surgical training to residents. He relishes opportunities to learn transferrable surgical skills to improve resident surgical education.

**Mary DeAgostino-
Kelly, MD**

Mary DeAgostino-Kelly, MD is an assistant professor of Clinical Obstetrics and Gynecology at Penn Medicine. She received her medical and public health degrees at Vanderbilt in 2015, and completed residency at the Hospital of the University of Pennsylvania in 2019. Her interests include resident education (particularly in gynecologic surgery), quality improvement, and reducing disparities in gynecologic care.
